

Best Engineering (Service Division) Ltd

Flow Detection & Measurement

We offer a comprehensive range of flow measurement solutions for closed pipes, open channels and partially full pipes.

From the flowmeter to the supply of complementary readouts, control units and differential pressure transmitters, we have a wealth of experience.

We select equipment from a range of leading manufactures to ensure that we provide a tailored solution to your requirements, that is accurate, reliable, efficient and cost effective.

Applications

- Water Meters
- Oil Meters
- Gas Meters
- Chemical Meters
- Viscous Liquid Meters
- Steam Meters
- Heat Meters
- Flow Switches
- Open Channel Meters

Technologies

- Differential Pressure
- Positive Displacement
- Ultrasonic
- Turbine
- Vortex
- Paddle
- Variable area
- Electromagnetic
- Thermal Mass

Brands

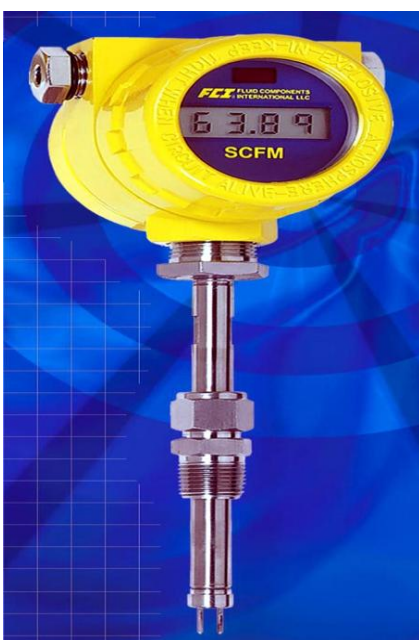

- Emerson
- Nixon
- Brooks
- Siemens
- Aalborg
- Trimec
- Fuji
- Katronic
- Endress+Hauser

This is just a selection of the manufacturers that we offer. In addition, we can offer replacement meters for obsolete makes such as KDG, Rotameter & Tylors.

Non-intrusive Metering

We also offer on-site liquid flow calibration of existing equipment, without breaking into the line or disrupting the process.
