

BIO SAFE™ s o l u t i o n s NATRUSOL

ENVIRONMENT SAFE DEGREASER

Natrusol

Is a unique, terpenes based, solvent cleaner and degreaser which replaces all existing chlorinated and fluorinated industrial solvents and degreasers. In accordance with "The Montreal Protocol" as a safety solvent, Natrusol is non-conductive and non-flammable, non acidic and non alkaline. Natrusol will dissolve any substance of an oily, resinous, bituminous, waxy or fatty nature. Effective for tar removal. Safe for use on most plastics. Can be used in any normal cleaning system, such as ultrasonic tanks, dip tanks or simple spraying or wiping. Either Hot or Cold, no special equipment is required for handling or disposal.

FEATURES

BENEFITS

Powerful

Dissolves the heaviest deposits of grease and grime.

Non Conductive

Can be used for degreasing machinery without isolation and down time.

**Non Acidic
Non Alkaline**

Less harmful to the end user.

Non Chlorinated

Contains natural citrus solvents without offensive and dangerous fumes of chlorinated solvents.

Non Fluorinated

Contains no ozone depleting solvents.

Naturally Citrus Based

Safer for the environment.

Versatile

Can be used in ultrasonic tanks, dip tanks or by spraying or wiping.

Biodegradable

Will not cause harm to the environment as it continues to break down in water.

Natrusol

Will dissolve oil bound contamination such as tar, bitumen, grease and materials of a waxy, resinous or fatty nature from plant and Machinery, Electric Motors, Circuit Boards, Windings, Electro Mechanical Components, Switches, Vehicles, Brakes. In fact anywhere grease or carbon deposits are a problem.

Natrusol

Can be used by anyone encountering "grease" problems.

Natrusol

Can be used in Ultra Sonic Tanks or Sprayed or Wiped onto Surface. Use as supplied.
