

Best Engineering (Service Division) Ltd

Pressure Measurement & Control

We supply most types and makes of pressure sensing, measuring and control instrumentation. Our range of equipment includes indicators, recorders, loggers and accessories as well as the main instruments.

The instruments we offer cover gauge, absolute and differential pressure. We also supply hand held instruments as well as fixed installation equipment.

If required equipment can be supplied with a calibration certificate.

We select equipment from a range of leading manufactures to ensure that we provide a tailored solution to your requirements, that is accurate, reliable, efficient and cost effective.

Equipment

- Gauges
- Transmitters
- Indicators
- Controllers
- Recorders
- Data loggers
- Valves
- Manifolds
- Diaphragm seals
- Fittings

Brands

- Emerson
- Siemens
- Endress+Hauser
- Yokogawa
- Vega
- ABB
- WIKA
- Danfoss
- Badotherm
- Stewart Buchanan

Calibration

We offer on-site calibration, or if required we can carry out the work in our workshop. All calibration work is carried using certified test equipment. During the calibration your equipment will be tested and compared to our certified test equipment. Each piece of equipment that has been calibrated is identified with a suitable sticker detailing the calibration date. After each visit a calibration certificate, which is traceable to National Standards, is issued.
