

# Best Engineering (Service Division) Ltd

## Temperature Measurement & Control

We supply most types and makes of temperature sensing, measuring and control instrumentation. Our range of equipment includes peripherals and consumables as well as the main instruments.

To complement our range of temperature equipment, we also supply humidity probes and sensors. Our scope of supply includes hand held instruments as well as fixed installation equipment.

If required equipment can be supplied with a calibration certificate.

We select equipment from a range of leading manufactures to ensure that we provide a tailored solution to your requirements, that is accurate, reliable, efficient and cost effective.

### Equipment

- Thermocouples
- RTDs
- Transmitters
- Indicators
- Controllers
- Recorders
- Data loggers
- Thermowells
- Consumables
- Fittings

### Brands

- Emerson
- Siemens
- Endress+Hauser
- Star Instruments
- Status Instruments
- West Instruments
- Badotherm
- Comark
- Danfoss
- ETI

### Calibration

We offer on-site calibration, or if required we can carry out the work in our workshop. All calibration work is carried using certified test equipment. During the calibration your equipment will be tested and compared to our certified test equipment. Each piece of equipment that has been calibrated is identified with a suitable sticker detailing the calibration date. After each visit a calibration certificate, which is traceable to National Standards, is issued.
